

SHIELD™

BY TRÉVO™

NATURAL MOSQUITO PROTECTION

PROTECT, REPEL,
PREVENT

ARE YOU A “MOSQUITO MAGNET”? MOSQUITO BITES ARE NOT JUST ITCHY AND IRRITATING. THEY CAN ALSO BE A POTENTIALLY HUGE HEALTH RISK.

Getting a mosquito bite is no fun, but even worse is the very real danger of getting a disease like Malaria, West Nile or Zika from that bite.

SHIELD by Trévo™ helps you take the necessary steps to help prevent mosquito bites for you and your family. All without spray repellents that are rife with health risks of their own, not to mention their terrible smell and sticky residue.

WHY IS SHIELD BY TRÉVO'S MOSQUITO PROTECTION SO IMPORTANT?

SHIELD was developed to combat the growing epidemic of mosquito-carried diseases from the inside out. Finding novel ways to disinterest mosquitoes from human skin has been a much sought-after goal, but yielded little results ... until now.

Through a proprietary extraction process and unique combination, the nutrients in SHIELD by Trévo work to diminish the attractiveness of human skin to mosquitoes. In other words, no more mosquito magnet! Our proprietary extraction processes allow for human skin to smell undesirable to mosquitoes while not giving off offending odors to other humans.

You might wonder why SHIELD is in capsule form rather than the typical spray or cream. The answer is simple, yet quite revolutionary.

You see, topical creams and sprays for mosquito bite prevention only offer limited protection and contain toxic chemicals and poisons that, when applied to your skin, are absorbed into your body. These types of mosquito products must be re-applied several times during the day as well as after bathing or swimming. Plus, many areas of your body remain unprotected even with liberal application. For example, your scalp, eyelids, groin and armpits. Clothing friction on the skin and sweat can also diminish the effectiveness of such creams and sprays.

The shield mosquito repellent capsule contains 100% natural plant/vegetable extracts, vitamins and compounds that naturally occur in plants, animals and humans.

HOW DOES SHIELD BY TRÉVO WORK?

SHIELD by Trévo's proprietary all-natural formula helps protect you from mosquito bites:

- FROM THE INSIDE OUT
- DISINTERESTS MOSQUITOES FROM HUMAN SKIN
- SMELLS UNDESIRABLE TO MOSQUITOES
- ABSOLUTELY NO OFFENDING ODORS TO OTHER HUMANS
- OFFERS THE POWERFUL NUTRITIONAL BENEFITS OF:
 - Calcium
 - Garlic extract
 - MSM
 - Chondroitin sulfate
 - Vitamin B1
 - Potassium bitartrate

SHIELD by Trévo, a completely natural mosquito repellent supplement, can make it much more difficult for mosquitoes to find and feast upon you.

Nutritional "perks" of SHIELD by Trévo

Calcium (Calcium Sulfate)

Your body needs calcium to build and maintain strong bones. Your heart, muscles and nerves also need calcium to function properly. Some studies suggest that calcium, along with vitamin D, may have benefits beyond bone health, including support for cellular and cardiovascular system health as well as the maintenance of healthy blood pressure.

Potassium Bitartrate

Also known as cream of tartar, potassium bitartrate is a health benefits powerhouse. In addition to supporting your body's natural toxin removal system, potassium bitartrate provides nutritional support for the central nervous system, brain function, bone health and muscle tissue growth. It even supports the maintenance of healthy blood sugar and blood pressure levels.

Proprietary Garlic Extract

Garlic has long been recognized for its potent nutritional support for the heart, vascular system and immune system health. Garlic is also beneficial in maintaining healthy cholesterol and blood pressure levels. Additionally, it contains antioxidants that support the body's protective mechanisms against oxidative damage.

Methyl Sulfonyl Methane MSM

MSM is naturally occurring in plants, animals and humans. It is well-known for its joint health benefits, but may also be helpful for other conditions related to chronic inflammation and damage due to oxidation. Additionally, MSM helps support the increase in levels of glutathione, a potent antioxidant produced by your body.

Chondroitin Sulfate USP

Chondroitin is an important structural component of cartilage and one of the key substances that allows joints to withstand pressure. So supplementing your body's natural supply of this essential nutrient just makes sense for maintaining good joint function and health.

Vitamin B1 (Thiamine)

Vitamin B1, also known as thiamine, is a water-soluble vitamin that enables the body to use carbohydrates as energy. It is essential for glucose metabolism, and it plays a key role in nerve, muscle, and heart function.

Malaria

In 2016, 91 countries reported a total of 216 million cases of malaria, an increase of 5 million cases over the previous year. The global tally of malaria deaths reached 445,000 deaths, about the same number reported in 2015. Although malaria case incidence has fallen globally since 2010, the rate of decline

has stalled and even reversed in some regions since 2014. Mortality rates have followed a similar pattern. It is clear that the current standards for mosquito control and malaria prevention, which are physical barriers such as nets along with topical and airborne pesticides, are simply falling short of effective prevention.

That is why SHIELD by Trevo is so exciting and revolutionary. Imagine protection against the deadly ravages of malaria with two simple, easy-to-swallow capsules each morning. No messy sprays, no clumsy netting. Your body is armored from the inside out with a proprietary blend proven to defend against mosquitoes.

Again, one of the best ways to protect yourself is by making your skin less appealing to mosquitoes. SHIELD by Trévo's proprietary formula can do that without causing any type of odor detectable by humans. Mosquitoes are repelled by it; people cannot smell it at all.

Supplement Facts

Serving Size: 2 Veggie Capsules (1244 mg)

Servings Per Container: 30

	Amount Per Serving	%DV
Vitamin B1 (as Thiamine hydrochloride)	24 mg	800 %
Calcium (as Calcium sulfate)	3 mg	<1 %
Potassium (as Potassium bitartrate)	99 mg	2 %

MSM (Methylsulfonylmethane)
Garlic (Allium sativum)(bulb) Extract 1.8%
Chondroitin sulfate

Other ingredients: vegetable cellulose (capsule), rice flour

*Percent Daily values are based on a 2,000 calorie diet

**Percent Daily Value not established.

Caution: Not intended for persons under the age of 13. Do not use if pregnant or nursing. Do not use if safety seal is broken. Consult a physician if you have any medical condition or are taking prescription medications.

Suggested Use: Take 1 to 2 capsules each morning with food and water or as directed by health care professional.

These statements have not been evaluated by the FDA. This product is not intended to diagnose, treat, cure or prevent any disease.*
